

RA Training for Medical Practices

Complete clinical documentation and coding is fundamental to accurate reimbursement in all risk adjustment models. Is your team “risk ready” for 2017?

ERM Consulting, Inc. will help your practice excel to new heights in risk based contracts. We provide onsite education and training for your entire team.

- Review the different risk adjustment models and their impact on medical practice management.
- Discuss the impact of shifting from RAPS to EDS. What does this mean for office based claims?
- Take a deep dive into HCC Coding and Documentation. Review real examples to see what validates, what doesn't, and why. Tips for engaging physicians.
- Learn how to leverage frontline staff to be successful in the world of risk adjustment and value based payments.
